

EXPERT MACHINING AND LASER CUTTING

QUALITY AND CRAFTSMANSHIP, FROM START TO FINISH

Machining plastic or metal parts is a labor-intensive business. By partnering with Seelye-Eiler Plastics, you can leverage our machining expertise and high-tech facilities to achieve lower cost products, improve quality, and significantly increase your return on investment. From small machined parts to large welded frames, we can take your project from concept to completion with ease.

- Machinists trained in programming, setup and machine operation
- Products created using modern, close-tolerance machinery by craftsmen skilled in CNC machining and laser cutting
- Facility equipped with multiple overhead routers, mills, screw machines, lathes, precision cutting and the latest inspection equipment
- First Article, in-process and final inspections performed with every order
- State-of-the-art precision machining for countless industrial metal applications in addition to plastics

MACHINING AND LASER CUTTING SERVICES

EQUIPMENT SELECTION – PLASTICS

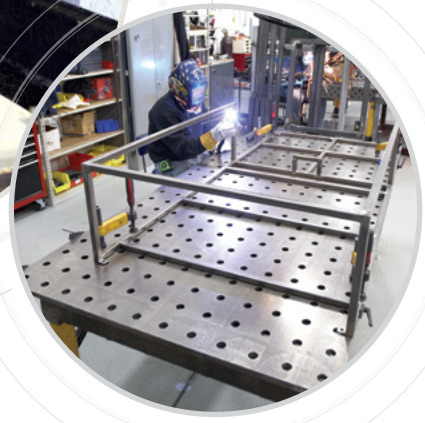

- Overhead routers up to a 7' x 12' bed
- Mills
- Screw machines
- Lathes
- Precision cutting
- Inspection equipment
- CNC laser cutting up to 4' x 4'

EQUIPMENT SELECTION – METALS

- Vertical mills
- Horizontal mills
- Turning centers
- Precision cutting
- Welding equipment
- Inspecting equipment

MATERIALS – METALS

- Titanium
- Aluminum
- Hastelloy
- Steel
- Stainless steel
