

CUSTOM FABRICATION SOLUTIONS

TRANSFORMING PLASTICS AND METALS TO MEET YOUR EXACT NEEDS

At Seelye-Eiler Plastics, we can create a wide variety of custom solutions to satisfy your most demanding applications. You can count on our workmanship to meet your specifications, and no job is too big or too small.

- Engineering department that partners with you to assist in design concepts and price quotations – from prototypes to large volume assembly and production work.
- Custom fabricators skilled at forming, cutting, drilling, tapping, hot air and extrusion welding, using the latest equipment.
- Ideal partner for all sizes of projects – tanks, tank liners, hoods, ductwork, plastic cabinets, bench systems, containment basins, pump stations, complete chemical handling systems and more.

ADDITIONAL SERVICES

- CAD support (*SolidWorks, AutoCAD and CADKEY*)
- Engineering design and support
- Class 1000 clean room product integration
- Clean room packaging services
- Custom thicknesses and diameters upon request

INDUSTRIES SERVED

- Chemical distribution
- Laboratory
- Medical
- Surface finishing and plating
- Water treatment
- Semiconductor
- Solar

CUSTOM FABRICATION OF PLASTICS AND METALS

MATERIALS – PLASTICS

- ECTFE (HALAR®)
- PVDF
- PFA
- PCTFE (NEOFLON™, also known as Kel-F)
- PTFE Teflon® (FEP, PFA and PTFE)
- Polyethylene
- CPVC
- PVC
- Polypropylene
- PETG
- Polycarbonate
- Acrylic

MATERIALS – METALS

- Titanium
- Hastelloy
- Aluminum
- Steel
- Stainless steel

SAMPLE PROJECTS

- Chemical delivery, mixing and transfer systems
- Fume hoods and lab furniture
- Custom ductwork
- Ventilation and ductwork fabrication and installation
- Temperature controlled specimen cabinet and automated coating systems for the medical industry
- Electroforming lathing systems
- Manual and automated vertical plating lines
- Automated high-pressure spray wash system
- Rotary spray equipment
- Electrowinning and metal recovery systems
